

## NEW Products from NIC!

### Anti-Microbial Envelopes

These envelopes are treated with an anti-microbial agent to guard against the growth of bacteria, mold, mildew, fungus, and odors. They are also Security Tinted for privacy of contents.

- #10 (4 1/8 x 9 1/2), Regular Envelopes
- #10 (4 1/8 x 9 1/2), Window Envelopes
- 9 x 12 White Catalog Envelopes
- 10 x 13 White Catalog Envelopes
- 10 x 13 Inter-Department Envelopes

### Postage Saving Clear-Clasp™ Kraft Envelopes

Innovative resealable Redi-Tac™ technology replaces traditional metal clasp on the closure for better repeated use and durability. Also featured is deep gumming on flaps for a more secure seal. When mailing the Clear-Clasp™ design eliminates additional USPS handling charges required for metal clasp envelopes.

- 6 x 9 Envelopes
- 9 x 12 Envelopes
- 10 x 13 Envelopes

### Envelope Moistener with Adhesive

Safely secures over 1500 envelopes. This fast drying product is housed in a spill proof plastic bottle and is good for gluing all paper products. The patented spring-valve applicator won't clog.

- Envelope Moistener  
50ml bottle
- Envelope Moistener  
50ml bottle on Blister  
Pack Card

### Reveal-N-Seal™ Envelopes

The Ultimate Self Seal envelope! No moisture required to seal, simply open the bottom flap and press closed for a secure seal. No strip to throw away. Unique glue provides for more than 6x longer shelf life. Security tinted for privacy of contents with microperfs along the flap to dissuade tampering. US Patent 6,732,494 B1

- #10 (4 1/8 x 9 1/2), Regular Envelopes
- #10 (4 1/8 x 9 1/2), Window Envelopes
